RE: Indianapolis Pretreatment Program

Dear Bob:

Enclosed please find for your review the following items:

1. Task 3 Report - Revised Draft
Wastewater Characterization
2. Task 1 - Draft
Industrial Survey, Appendix E

Please note that Appendix E presents an alphabetical listing of the industries located in the Indianapolis area with the concentration of the corresponding pollutants discharged, as per our discussion of September 17th, 1982. The delay in submitting this table to you was due to our resolving the claim of confidentiality issue with certain industries.

The Draft Task 4 Report, which includes the proposed industrial waste discharge limits of the new Ordinance, is now under review by the City, and will be sent to you after the necessary changes are completed.

The pretreatment study project is on-schedule and, as discussed with you during our September 17th, 1982, meeting, you will receive the complete draft version of the new City Ordinance for your interim review and comments by the end of December, 1982.

Find pr

Enclosed please also find copies of our monthly project status reports for the months of July, August, September, and October, 1982.

If you have any questions regarding the Indianapolis Pretreatment Study please call me at (317)236-4887.

I would like to thank you in advance for your interest in our study and your cooperation.

Please give my regards to Valerie.

Sincerely,

A handwritten signature in cursive script that reads "V. Keramida".

Vicky Keramida, Ph.D.
